

# Professional semi-permanent individual eyelash extensions

Ladies, are you interested in beauty services that make you look and feel your best?

LIKE hair extensions, eyelash extensions add length to human eyelashes. Once a product accessible only to a limited consumer, eyelash extensions have become more popular and affordable. Aiming for an authentic, natural feel, they come in various lengths and thicknesses, and can be worn during sleep, showering and swimming.

adhesives (commonly used in auto manufacturing) enter the US and European market through China and Korea. These Asian-produced adhesives are branded in the US and marketed as "American" brands.

We use NovaLash Adhesive, a rubberized fume-free adhesive. This is a newly re-formulated "Sensitive Eyes" adhesive with a flexibility agent for extra-long wear and durability. Clients with sensitive eyes need no longer worry about irritation or sensitivity. While Platinum Bond still remains the strongest adhesive available on the market, the new "Sensitive Eyes" formula is twice as strong and durable as the previous, non-rubberized formula. Like all NovaLash adhesives, this new product is Certified and Tested, Pharmaceutical grade, doctor-formulated, and made in the USA in their FDA-inspected facility.

EyeLash Extensions have been our specialty for many years. With years of experience, Mobile Lashes has mastered the art and redefined the options available to our clients and their eyelashes. Indulge in a free complete facial consultation by a professionally certified EyeLash Extension Specialist, where an individual design is customized to your unique eye, face, and eyelash hair type. EyeLash Extensions not only emphasize the shape of the eye but also create beautiful captivating eyes with dark thick lashes.

We service the Greater Los Angeles area, San Fernando Valley, San Gabriel Valley, and some areas in Riverside County and Orange County. Home Service is available within 60 miles radius from zip code 91006.

# Liquid Facelift—the Revolutionary Beauty Solution from Allure Cosmetic

As people grow older, their faces begin to lose collagen and elastin, which leads to the formation of wrinkles, creases, and folds. As early as 30 years old, some men and women notice the start of sagging facial features. For those who have lost fat in the face and want to regain the fullness that they had in their youth, Allure Cosmetic Solutions is offering the Liquid Face Lift.

A non-surgical procedure, the Liquid Face Lift uses injection techniques to fill in or replace the fullness that's been lost through the years. Natural, curved facial contours are restored; wrinkles, creases and folds are reduced; facial features are gently lifted.

Dr. Brian Machida of Allure Cosmetic Solutions says that among his numerous, multi-racial clients, more and more Filipinos prefer the liquid face lift over surgical face lifts. "There are no side effects to the procedure which is done three times, six weeks apart," said Dr. Machida. "We inject dermal fillers that stimulate your body's own collagen, providing a lift to various facial features. Your face looks fuller and younger; no more sagging," he added.

Many patients of Allure who have had a liquid face lift procedures say that they received compliments on their appearance without others knowing that they have done anything. In some instances, the results can be so uplifting that they change an individual's life.

With the proliferation of beauty/aesthetic clinics today, it is important that you choose one that will give you the best value for your money. After all, you only have one face, one body—so, you can't afford to have mistakes. No wonder, more people go to Allure Cosmetic Solutions because they know Dr. Brian Machida is one of the best in his field. Most women choose lash extensions to lengthen their natural lashes while others want their lashes to look fuller. Extensions can create a younger appearance on many clients. These semi-permanent eyelash extensions create the appearance of a brighter, more open and rejuvenated eye, thereby creating a more youthful and rested look. Above all the main advantage of lash extensions is how much time you can save during your beauty regimen.

Extensions allow you to spend less time with makeup; mascara is certainly no longer necessary. The added benefit is that they look beautiful morning and night, all day, every day. Say goodbye to the application of mascara, stained tears and mascara masks around the eyes.

NovaLash eyelash extensions are an entirely new method of enhancing the length and thickness of eyelashes. Extensions are applied on a lash-by-lash basis for a totally natural look. NovaLash eyelash extensions can last from up to six to eight weeks. Most of the leading brands of lash extension adhesives tested by the AEWCA were found to contain toxic and carcinogenic irritants such as formaldehyde. Many untested industrial-grade
