

10 Hair Care Tips from David Charlton of David's Salon

HERE ARE some Healthy Hair Care Tips as shared by the Guru himself Mr. David Charlton:

How do you treat hair that has been damaged by frequent blow drying & flat ironing?

A nourishing treatment every other week is a must. And before blow drying and/or ironing, apply L'Oreal's Liss Ultime to protect the hair from heat.

How do you take care of damaged hair from frequent hair coloring?

For hair coloring, go to David's Salon and have a professional colorist do it for you. For damaged hair, get a treatment like L'Oreal Power Dose Repair. Have a L'Oreal Power Dose Color treatment to prevent color from fading and to restore moisture. You can also use L'Oreal Vitamino Color Shampoo and Conditioner to maintain hair color vibrancy and shine.

How do you treat highlights that are too obvious?

Using a "Tone on Tone" color can tone down highlights that are too obvious. This product colors without ammonia and adds shine and balances color.

How do you manage over treated hair?

Damaged and very porous hair must be treated with L'Oreal Power Dose Repair and Renew-C every other week for two months to repair and strengthen the hair. Use L'Oreal Absolute Repair Shampoo, Conditioner and Masque for maintenance.

How do you treat fine & limp hair?

For Limp hair, use L'Oreal Volume Expand Shampoo and Conditioner. For Ladies, they can try a Body Perm to add volume and shape to their hair.

How do you treat "Split Ends"?

Split Ends must be cut. Treatment is also needed. A way to avoid them is by having a trim every 4-6 weeks and to have a regular nourishing treatment specially if your hair is long. Before blow drying and or ironing, apply L'Oreal's Liss Ultime to protect the hair from heat.

How do you handle Fly Away Hair?

Get treatment such as Relaxing or Rebonding to control curls or fly away. Another option is to get a Precision Hair Cut. Visit any David's Salon and consult a professional stylist for an expert opinion.

How do you deal with a wrong Hair Cut?

It is best to see a professional hairstylist. Wait for at least four weeks for the re-touch. Visit David's Salon and our professional hair stylist will work with you in getting the hair cut you desire.

How do you deal with thick and unmanageable hair?

Get a uniform layer hair cut to minimize volume if it's too curly. If your hair is very curly and thick, it is better to keep it long and have it rebonded if you desire straight hair.

How do you to manage frizzy hair ends?

Prevent frizzy hair by having a trim every 4-6 weeks and apply a conditioner especially at the ends of your hair.
