Bander Law Firm has removed the stigma usually associated with bankruptcy. The bankruptcy laws were created by Congress to provide relief to those who have been victimized by divorce, job loss, identity theft, staggering medical bills or disability. Usually, however, a combination of unfortunate events contributes to significant financial woes. Some seemingly manageable credit card debt can become insurmountable when combined with a job loss. So, stop blaming yourself for your situation and take control of it. Contact Bander Law Firm today to schedule a bankruptcy consultation.

Recent developments in bankruptcy law may allow debtors to lower the mortgage balances on their home, and sometimes lower mortgages on investment properties.
